

The Ultimate
Storage Experience.

**Software Made For Self
Storage Owners...
By Self Storage Owners**

Easy Storage Solutions was created by small business self storage owners, Ken and Jimmy. They know the ins and outs of the industry and understand how much goes into running a facility. Whether you have one building or 15, Easy Storage Solutions software can simplify your work. Our software provides you with everything you need to succeed, at an affordable price. Easy to use and simple to navigate, our software has all the features you need to run your storage facility efficiently and effectively.

Ken Hendrickson & Jimmy Sorenson

Best thing I've ever done...

Easy Storage Solutions is easy to set-up and simple to use. Our customers like the convenience it provides. It has significantly reduced the amount of time I spend each month on billing and record keeping. I also appreciate that customer service is easy to reach and they answer my questions quickly and politely. I could not be more satisfied.

Amanda Zellers - Centsable Self Storage

Easy to learn...

The crew at Easy Storage Solutions has always been there for me. They are easy to work with and love to work hard. The software, the staff, and the entire suite of services are everything you need!

#1 Rated Self Storage Software

Easy Storage Solutions wants to simplify the self storage industry as much as possible. Because of that, we are always improving our services. As self storage owners ourselves, we know what goes into the industry, and what the struggles of the business are. At Easy Storage Solutions, we offer multiple solutions to make people more effective in the self storage industry. Our services are designed for small to medium sized facilities, and allow facility owners to simplify their business.
