Janus International Group
135 Janus International Blvd., Temple, GA 30179
JanusIntl.com

The Nokē® Smart Entry system by Janus has changed the way self-storage owner operators throughout the world think about access control. Unlike the dated, keypad systems of the past, the Nokē® Smart System takes security and convenience to an all-new level. Our Smart technology secures everything from gates, doors, elevators, sliding doors to unit roll-up and swing doors. Self-storage owner operators can now fully automate the move-in process to capture more after-hour rentals, and some owners are charging up to 30% premiums for smart units.
